

WORRY-FREE USED CAR OWNERSHIP

Inspection and Warranty Services for Secondhand Vehicles

FOREWORD

Premium Warranty Services Philippines aims to radically change the purchasing and ownership experience of pre-owned car buyers – for a very wide range of car brands in the country. Through our inspection and warranty services, we empower customers by assuring them of the quality of the used vehicles they are purchasing for a worry-free car ownership. PWSPI also helps used car sellers to build a stronger relationship with their buyers and provide better value on the vehicles that they are selling.

The Filipino deserves – and demands – no less than the same world class standards for pre-owned vehicle services offered in more developed countries.

Our goal at PWSPI is to create a more transparent used car marketplace in the Philippines that benefits both buyers and sellers. We welcome pre-owned car dealers to join our journey and together provide a better used car experience to all Filipinos.

Vince Socco, PWSPI Chairman

WHO IS PREMIUM WARRANTY SERVICES PHILIPPINES, INC.?

Premium Warranty Services Philippines, Inc. (PWSPI) is an auto mobility company established through a joint venture between GT Mobility Ventures, Inc. (GTMV) – a partnership between GT Capital Automotive Dealership Holdings, Inc. (GTCAD) and Mitsui & Co, Japan – and Premium Group Co. Ltd., Japan’s number one automotive warranty provider.

PWSPI envisions itself to be the premier provider of both inspection and warranty services for secondhand vehicles in the Philippines.

By providing top-quality inspection and warranty services, PWSPI hopes to deliver worry-free vehicle ownership and change the way Filipinos perceive the secondhand car market. This is in line with its principle of Transparency, Quality and Value in every product and service.

WORRY-FREE USED CAR OWNERSHIP

While lower prices and less depreciation are the main advantages of buying a secondhand car, the uncertainties on its condition and long-term reliability can be real concerns for some. Because no matter how good its condition is, even if it's properly maintained, you never know when it'll breakdown. Especially that newer cars are now being built with ever more sophisticated technology, although designed to make driving more pleasurable, the chance of these components causing costly repairs further increases.

The local used car marketplace is also riddled with countless options, which makes shopping for a used car a daunting experience as it is. Unfortunately, this could at times include dodgy dealers who are selling vehicles with hidden issues. These things make buying a secondhand car very unpleasant especially for first-time or inexperienced buyers.

This is what Premium Warranty Services Philippines, Inc's (PWSPI) inspection and warranty services aim to address and deliver worry-free vehicle ownership.

Transparency

Third-party inspection provides an unbiased assessment on a vehicle's condition.

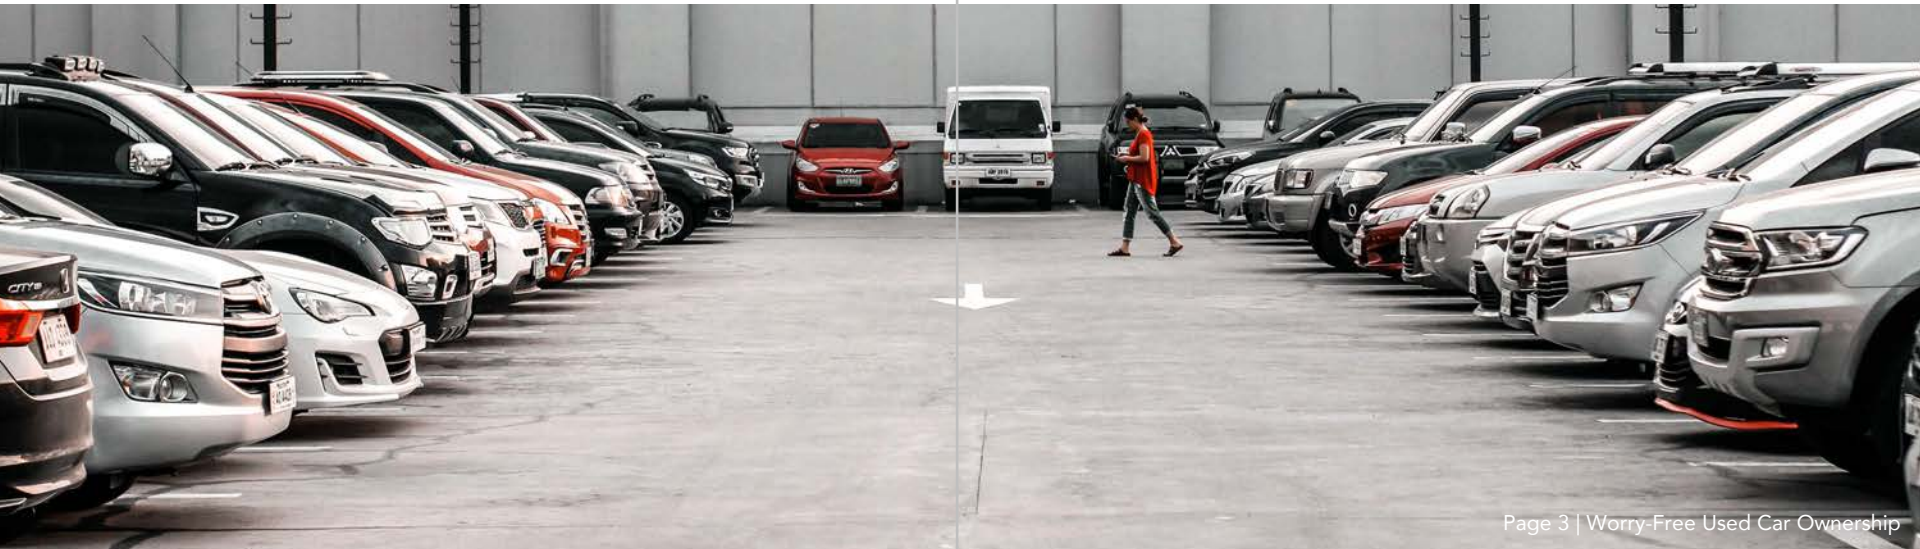

Quality

Only vehicles that passes Premium Inspection will be offered with Premium Warranty.

Value

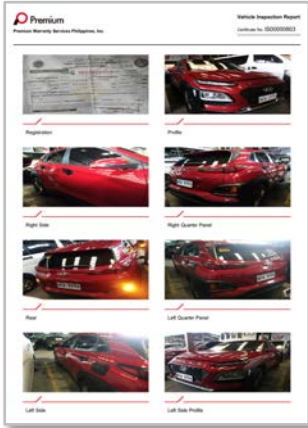

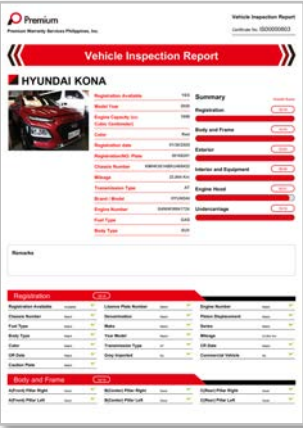

Premium Warranty provides peace of mind to the buyer in case of a breakdown.

PWSPI provides an extensive high-quality inspection service on any used motor vehicle and provide a detailed report on its condition.

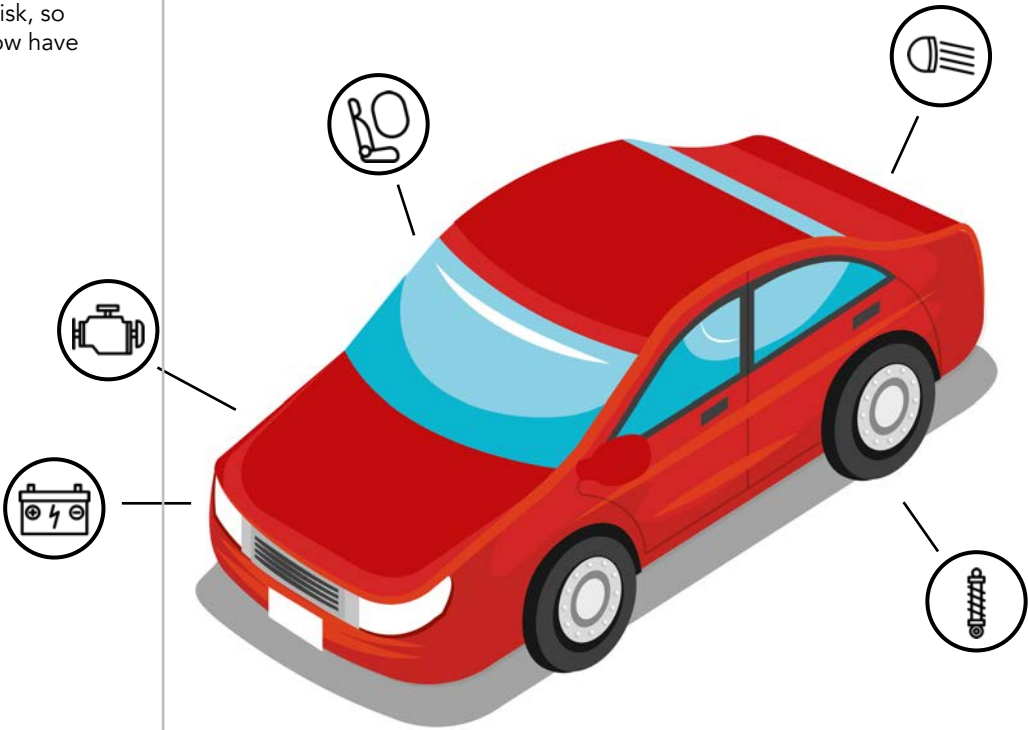

With the help of our trained technicians using world-renowned Japanese standards, buyers can find a quality secondhand car from all the available options in the market.

We offer a 188-point inspection which checks the engine, transmission, brakes, air conditioner, mechanicals, and electrical systems. This allows us to give reliable, unbiased information to remove guesswork and minimize the risk, so buyers can purchase with confidence. Likewise, used car dealers can now have transparency on the products they offer, resulting in strong and lasting relationships with their customers.

PREMIUM INSPECTED QUALITY SEAL

All vehicles that have undergone the 188-point inspection by PWSPI bears this seal. Look for this badge next time you visit a used car dealer to find a quality secondhand car.

プレミアの 故障保証

Eligible vehicles identified through inspection can then be covered by PWSPI with a 1-year or 2-year warranty period.

In a marketplace that has grown accustomed to buying and selling on an “as is where is” basis, Premium Warranty transforms the way Filipinos buy used cars. Besides safeguarding customers’ investment from hidden faults, defects and sudden breakdowns, PWSPI provides repair service on more than 200 parts.

Buyers can claim warranty and have their vehicles repaired at no cost – a benefit only previously enjoyed by those who buy brand new vehicles.

PWSPI also has a nationwide accredited repair shop network with locations in major cities, allowing owners to enjoy the drive to most parts of the country. The company’s services will be applicable to most major Japanese, American and Korean car brands at launch, with plans of expanding to European and premium brands in the near future.

ZERO REPAIR COST

Protect yourself from any unexpected costs when your vehicle suffers a breakdown, which will usually be an expensive out-of-pocket expense. Premium Warranty will cover the repair and/or replacement of over 200 individual parts free-of-charge* allowing you to enjoy worry-free car ownership.

CUSTOMIZABLE WARRANTY COVERAGE

Select which plan suits you best, with coverage ranging from Engine & Transmission only to a Comprehensive Warranty that covers over 200 individual parts. You may also opt between a 1-year or 2-year warranty period based on budget or preference.

ACCREDITED REPAIR SHOPS NATIONWIDE

With nearly 100 accredited auto repair shops nationwide, you can claim repairs from any part of the country.

ENGINE & TRANSMISSION WARRANTY

(Sections 1 - 2)

1 | ENGINE

Engine Assembly, Engine mount, Crankshaft, Crank shaft metal, Cylinder block, Cylinder head, Cylinder head gasket, Cylinder head cover, Piston ring, Each part bracket, Cam shaft, Cam shaft bearings, Valve guide, Valve stem seal, Valve spring, Valve retainer, Valve lifter (tappet), Valve rocker arm, Valve rocker shaft, Push rod, Lash adjuster, Intake and exhaust valves, Oil pressure switch, Oil pump, Water pump, Thermostat, Radiator Assembly, Radiator cap, Radiator hose, Radiator mount rubber, Radiator reservoir tank, Cooling fan, Cooling fan coupling, Cooling fan shroud, Cooling fan motor, Ignition coil, Ignition coil switch, Ignition switch, Alternator Assembly, Starter motor Assembly, High-tension cord, Common rail, Diesel injection nozzle, Fuel injector, Fuel sender gauge, Fuel pump Assembly, Intake manifold, Exhaust pipe, Exhaust manifold, Throttle body, Muffler, Supercharger, Turbocharger Assembly, Turbo housing, Turbo bearing, Catalytic converter, Secondary air supply system, O2 sensor, Accelerator position sensor, Engine ECU, Oil level sensor, Cam angle sensor, Crank angle sensor, Throttle position sensor, Knock Sensor, Vacuum sensor, Intake air temperature sensor, Air-fuel ratio sensor, Water temperature sensor, Exhaust temperature sensor, Hydraulic pressure sensor, Oil temperature sensor.

2 | TRANSMISSION

A / T Assembly, A / T oil pump, A / T clutch, A / T solenoid, A / T valve body, A / T mount, CVT assembly, Torque converter, M / T assembly, M / T mount, Synchronizer mechanism, Transmission gear, High-pressure pump, Electromagnetic clutch, Differential various parts gear, Transfer Assembly, Viscous coupling Assembly, A / T control unit, CVT control unit, Hydraulic pressure sensor,

Oil temperature sensor, Drive shaft Assembly, Drive shaft boots, Propeller shaft, Propeller shaft center bearing, Outboard shaft, Inboard shaft, Universal joint.

COMPREHENSIVE WARRANTY

(Sections 1 - 8)

3 | STEERING

P / S pump, P / S pump gasket kit, P / S Motor, Interface Midi Eight shaft, Steering gear box Assembly, Steering gear box gasket kit, Steering column Assembly, Steering shaft, Steering knuckle, Tie rod, Tie rod end, Pressure switch, Rack boots, Electric P / S gear box, Steering control unit, Steering torque sensor, Steering angle sensor.

4 | AXLE

Coil spring, Suspension arm, Suspension arm bush, Suspension Support, Suspension Support bearing, Suspension rod, Stabilizer Assembly, Stabilizer bush, Stabilizer link, Ball joint, Lateral rod, Knuckle, Wheel hub, Wheel hub bearings.

5 | BRAKES

Brake caliper Assembly, Brake caliper piston, Brake piston seal, Brake booster, Brake wheel cylinder, Brake hose tube, Brake master cylinder, Brake master cylinder cup kit, ABS actuator, ABS control unit.

6 | HYBRID

Inverter, Input damper, Water hose, Water pump, Converter, Circuit breaker sensor, Starter Generator, Other seals, Transaxle Assembly, Transaxle oil pan gasket, Hybrid control unit, Battery case, Battery control unit, Various parts harness, Drive motor.

7 | AIR-CONDITIONING

O-ring, Air conditioning expansion valve, Air conditioning evaporator, Air conditioning condenser, Air conditioning

control panel, Air conditioner control unit, Air conditioning compressor Assembly, Air conditioning pipe, Air Conditioning monitor, Air conditioning receiver, Air conditioning pressure switch, Air conditioning temperature switch, Flap motor, Blower switch, Blower fan motor, Magnet clutch, Outside air temperature sensor, Inside air temperature sensor.

8 | ELECTRICAL EQUIPMENT

Door mirror Assembly, Door mirror control unit, Door mirror switch, Opening and closing part door mirror actuator, Mirror surface portion door mirror actuator, Keyless receiver, Sliding door motor, Door control unit, Door lock, Door lock actuator, Door lock switch, P / W switch, P / W master switch, P / W motor, P / W regulator, CD changer, CD deck (including CD · MD composite), CD navigation, DVD changer, DVD deck (including CD · MD composite), DVD navigation, HDD navigation, MD changer, MD deck, Audio amplifier, Cassette deck, Speaker, Multi-navigation unit, Each part antenna, HID burner, Combination switch, Stop lamp switch, Headlight computer, Washer motor, Wiper switch, Wiper motor, Wiper relay control unit, Active body control parts, Immobilizer control unit, Corner sensor.
